ABOUT ME

Dual-degree student in **Public Administration & Development Management** (Addis Ababa University) and **Computer Science** (St. Mary's University), bringing a rare combination of technical expertise and strategic thinking. Experienced in full-stack web development, data analysis, AI integration, and financial data management. Passionate about Ethiopia's growing tech ecosystem and building impactful real-world solutions.

EDUCATION

BSc Public Administration & Development Management 2024 - Present

Addis Ababa University

Governance, organizational management, policy analysis, leadership, and development strategies.

BSc Computer Science 2026 - Present

St. Mary's University

Algorithms, mathematical problem-solving, and programming. Independently mastered HTML, CSS, JavaScript, PHP, MySQL through real projects.

EXPERIENCE

Full-Stack Web Developer 2024 - Present

Companies & Personal Use

Built Student Registration System (Akaki Adventist Boarding School), Tech Her Path platform, Coffee Shop website. Contributed to Evangadi AI Forum — team-built platform with Gemini API, RAG, Node.js & MySQL.

Data Analyst & AI Tools Specialist 2025 - Present

Companies & Private Clients

Analyzed financial data for banks and private clients using AI tools to detect performance trends and measure profitability. Delivered actionable insights supporting smarter decision-making.

Science Tutor 2019 - Present

Private & Major High Schools

5+ years tutoring. Improved student performance by 25% (65%→81%). Guided Grade 6, 8 & 12 learners through national exams.

Tech Content Creator 2016 - 2017

TikTok · Instagram · YouTube

Developed educational tech content simplifying complex topics for a growing social media audience.

NOTABLE PROJECTS

📊 Stock Sentiment Analysis

Python · NLP · 10 Academy

Analyzed relationship between financial news sentiment and stock price movements.

🏦 Fintech Customer Analytics

Python · Sentiment Analysis

Analyzed Ethiopian banking app reviews (CBE, BOA, Dashen) to identify satisfaction drivers.

🗂 Evangadi AI Forum

Node.js · Gemini API · RAG

Full-stack AI forum with Gemini API, RAG architecture, chat history & REST APIs.

🌐 Tech Her Path Platform

HTML · CSS · JavaScript

Platform empowering women with tech skills — user-friendly and purpose-driven.

🏠 Student Registration System

Web Dev · MySQL

Full registration system for Akaki Adventist Boarding School.

🛡 Insurance Risk Analytics

Python · Data Analysis

Python-based risk analysis project exploring risk segmentation and data insights.
